Happy New Year!

Our last update was in early December. Since then, we have been to the States and back, where our daughter Anna got married and we got to see all of our kids, grandkids, and all sorts of friends and family. It was a rich time!

Below is a sample of what I try to send out each week for upcoming surgeries and for post-op reports so that patients will be prayed for. Whether professing Christians or not, they are always grateful when I tell them that people will be praying for them.

Pre Op

Yakhoub is a 13 y.o. Muslim boy from Chad referred to us by workers there. He will have two valves replaced tomorrow (Monday) because of Rheumatic Heart Disease. Please pray for him and his dad who is with him, that his surgery will go well and that they will come to know how much Jesus loves them while they are here.

Post Op

Ndagiro (right), the gentle 44 y.o. Congolese man who lives in Rwanda with his family of eight children ages 3-23, and who came with his younger brother from Nairobi to have his mitral valves replaced last month, had to be discharged without surgery until his liver function improved.

He was able to have surgery last week, is doing very well, and is looking forward to going home!

Thank you!

Thank you for your generous giving last month and throughout the year. We are encouraged as we move forward with each new step and as we see patients able to have life-changing and life-saving hospital experiences and surgeries thanks to your generosity.

May you know God's grace and peace anew in this new year!
